Safety Admin

MANAGE YOUR OHS PROGRAM WITH ONE PROVEN APPLICATION

Everything from Training to Compliance at Your Fingertips

WE MAKE IT EASIER TO KEEP YOUR OHS PROGRAM ORGANIZED

As the Safety Administrator, you're responsible for hundreds, maybe even thousands, of human lives and pieces of equipment. You're responsible for tracking all employee safety training, all equipment inspections, and certifications.

Your company depends on you to keep everyone and everything in compliance with Provincial and Federal Safety laws. How do you keep track of all those dates, certificates and documents?

Imagine being able to locate any form, record or document in seconds no matter where you are. Having all information stored in one location and available on demand will save you time, legal issues, and could even save a life during.

We have the solution to make your job more manageable.

CERTIFICATE OF RECOGNITION

Our app meets all COR Requirements. COR is the best way for a company to show its commitment to health and safety and demonstrates to clients that the company is reliable and professional.

EASY TO USE BY ANYONE

We listened to safety professionals from all over Canada to make this the most comprehensive and easy to use application for:

- ✓ Documents
- ✓ Procedures
- ✓ Task Hazard Analysis
- ✓ Safety Meetings
- ✓ Committee Meetings
- ✓ Equipment
- ✓ Inspections
- ✓ Practices
- ✓ Investigation
- ✓ Employee
- ✓ Orientations
- ✓ Training Records

SAFETY ADMIN ORGANIZES YOUR OHS PROGRAM

Our application lets you manage your OHS program in one digital system at the job site or in the office. All of your records are cloud-based and paperless. You and your team will have 24/7 secured access to every form, document, certificate, and expiration date. A secure permission system limits access to data.

Safety Admin is a complete safety application usable in any industry.

WORK ONSITE FOR INSPECTIONS OR TRAINING

Use it in the field to log information and complete inspection reports. No internet required to use the app.

Download inspection forms, safety meeting topics, employee training programs, and toolbox talks to any mobile device and take them to the job site.

MONITOR EVERYTHING FROM THE OFFICE

Safety managers can easily monitor all records in real-time, check compliance with every employee and piece of equipment without visiting the job site. The app notifies you of pending expirations keeping you ahead of the deadlines.

ELIMINATE TIME CONSUMING PAPERWORK

Safety Admin is entirely paperless, saving you many hours of filing and copying. It eliminates lost, stolen, or damaged paper files and can save thousands of dollars in printing costs while reducing your environmental footprint.

Sign and send documents using PC, Android or Apple touchscreen devices, increasing workflow and visibility. It's simple to create a digital filing system and to distribute information to all employees.

> " *With the ability to upload almost all our paperwork, we have gone from a paper system of 60+ binders to 2-3 binders, making it very easy to locate documentation. This is one program I would recommend to any company looking to improve and keep track of their safety records and training! Everything you need in one convenient place from anywhere!!* "
